Capacity Strengthening of Teachers on Gender Responsive Pedagogy

The participation of FAWE Regional Secretariat as trainers during the workshop capacitated FAWEESWA with skills and knowledge in Gender-Responsive Pedagogy training.

33 people (30 Teachers and 3 Guidance Officers) were equipped with knowledge of GRP and were able to see the need to change their teaching and classroom management practices.

FAWEESWA has detailed work plans for each of the 15 schools. The plans will help FAWEESWA and the Guidance Officers to monitor the trained teachers.

Gender Responsive training is a huge knowledge that all teachers including Guidance and Counselling Teachers need to have to make schools better.

Patron Launching Scholarship Program

The Patron of FAWEESWA, HRH Queen Nozizwe was able to raise sponsorship for six girls from different secondary schools in the country. The scholarship is awarded to talented girls especially in STEM subjects.

The girls were given gifts by the patron for their outstanding work.

"Education is the greatest equalizer, it doesn't matter if you have money or not, it doesn't matter which ever geographical area you come from, whichever country but once you are educated, that's the only way we can be equals"

-Alvin Toffler-

Mentorship for Scholarship Beneficiaries

"Mentors and role models are very important because they guide and support the girls in what they want to be. With the young ladies here from FAWEESWA, it's a big step in their journey of education ..."

"Since I would like to be a cardiologist, being part of this event has really inspired me to aim and go for my dreams."

"As a student in a rural school, I am motivated to work hard and be an example to my peers."

"As a form 1 student, I am excited to choose all sciences when I reach the higher grades."

"I am determined to work hard at school, to enable myself to be the best at what I want to do."

"I realised that I can work hard to be at the top. Thank you to Queen Nozizwe and FAWEESWA for the opportunity to see women in different STEM fields."

"Thank you Queen Nozizwe and FAWEESWA for the opportunity. I am determined to work hard and be like the Engineers that we saw."

Commemoration of World Forestry Day

The Forum for African Women Educationalists Eswatini (FAWEESWA) in collaboration with the Department of Forestry from the Ministry of Tourism and Environmental Affairs held the commemoration of World Environment Day at Cathula High School in Mankayane

The learners were taught the importance of planting trees to mitigate against climate change. A donation of 250 Trees was made to the school. These are the words of Nosimilo Ntshangase, the Head Teacher of Cathula High School, "The motto of the school is 'driven by Excellence' therefore everything that we do will excel. Even as the trees that we are planting will be protected and taken care of ". She encouraged the girl child to work hard to attain the highest form of education. She expressed appreciation for choosing her school for this important activity. She also thanked GEF/UNDP for providing funding for this activity.
